**REPORT AND ORDER**  
**(Proceeding Terminated)**

Adopted: May 19, 1999

; Released: May 28, 1999

By the Chief, Allocations Branch:

1. The Commission has before it eight Notices of Proposed Rule Making ("NPRMs"), specified below, setting forth separate proposals to allot channels to specific communities.

Although these NPRMs were issued separately and the proposals are not mutually exclusive with each other, we are consolidating them in this Report and Order as part of our effort to expedite and make more efficient the FM allotment rule making process because these proceedings are uncontested. While consolidated, these dockets are still separate for finality purposes. In the event a reconsideration petition is directed to an action in a particular docket, a separate Memorandum Opinion and Order will resolve that reconsideration petition.

2. Each petitioner filed comments in support of its proposal, reaffirming its intention to apply for the specified channel, if allotted. Each proposal complies with all Commission technical requirements, and we continue to believe that each proposal would serve the public interest. Accordingly, we adopt each proposal as originally proposed. These are as follows:
